## 12 Volt Electric Fishing Systems Information

Model	Max Line Speed	Max Load †	Amp Drain ††	Weight	Length	Width	Depth
ED7500-4 XHD Windlass	190	250 lbs	36-45 amps	50 lbs	20"	12"	12"

### ED-10 Series: 3/4 HP motor with 10" discs

ED7500-10 XHD (20:1 gearbox)	290	250 lbs	36-45 amps	65 lbs	22"	14"	12"
ED7500-10 XXHD (30:1 gearbox)	200	250 lbs	36-45 amps	65 lbs	22"	14"	12"
ED7500-10 XHD BOX -AL SS (20:1)	290	250 lbs	36-45 amps	70 lbs	26"	14"	12"

### ED-12 Series: 3/4 HP motor with 12" discs

ED7500-12 XHD (20:1 gearbox)	400	250 lbs	36-45 amps	70 lbs	23"	16"	12"
ED7500-12 XXHD (30:1 gearbox)	310	250 lbs	36-45 amps	70 lbs	23"	16"	12"
ED7500-12 XHD BOX SS	400	250 lbs	36-45 amps	75 lbs	26"	14"	12"

† As the weights you pull increase, the line speed will decrease and the amp drain will increase. This data is designed to offer approximations only. Individual results will vary slightly. Battery drain is related to the length of time that the hauler is on. Hence, even though the ED7500 series haulers are listed as drawing twice the amps, since they are twice the speed, they pull in half the time so the amp drain is approximately the same.

†† Approximate amp drain under load. Individual results may vary.

### Optional Equipment

Fairlead Roller with SS Bolt
Rope Deflector with SS Bolt
Davit (Boom Pole)
10" Stainless Steel Discs
12" Stainless Steel Discs
Foot Switch
